

We are good neighbors and together we can accomplish anything.

DESIRED AMENITIES AND RESOURCES

Participants also identified several of their preferred amenities and resources to be integrated into the housing designs. They commented on the need for both public and private household amenities, such as patios, gardens, and appliances. The following highlights are a summary of the discussion:

- Consider the need for laundry facilities in the housing complex.
- Focus on outdoor play equipment for children as a top priority.
- Construct soccer fields in outdoor open spaces.
- Create some private outdoor spaces (e.g., patios).
- Ensure that there is adequate parking for residents.
- Create quiet spaces where children are able to study, do homework, and use computers.
- Consider integrating childcare and healthcare resources into housing projects for farmworkers and their families.
